Further Reading

There are many valuable references within each of the *Hadoop Administration Modules*. Below is a selection of readings and references which will help to shape the approach taken in developing this resource. Some of these are available on PDF or are linked to websites.

1. Hadoop Operations Book: http://www.amazon.in/Hadoop-Operations-Eric-Sammer/dp/1449327052

> If you've been asked to maintain large and complex Hadoop clusters, this book is a must. Demand for operations-specific material has skyrocketed now that Hadoop is becoming the de facto standard for truly large-scale data processing in the data center. Eric Sammer, Principal Solution Architect at Cloudera, shows you the particulars of running Hadoop in production, from planning, installing, and configuring the system to providing ongoing maintenance.

2. Hadoop - The Definitive Guide: http://hortonworks.com/blog/how-to-size-your-hadoop-cluster/

> Ready to unlock the power of your data? With this comprehensive guide, you'll learn how to build and maintain reliable, scalable, distributed systems with Apache Hadoop. This book is ideal for programmers looking to analyze datasets of any size, and for administrators who want to set up and run Hadoop clusters.
